## FACTSHEET ON CAPACITIES IN AGRICULTURAL HIGHER EDUCATION

# RUFORUM Capacity Building in Agriculture

## Α

AS I facilitated by IFPRI

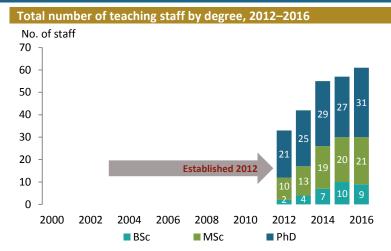

### University of Eldoret, Kenya

**School of Agriculture and Biotechnology** 

Anish Tailor, Elizabeth Omami, Lawrence Mose, Virginia Wangari, and Nienke Beintema

31 staff in 2016

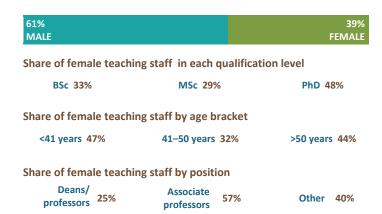

October 2018

Note: The school was established in 2012.

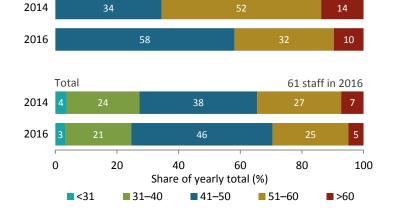

PhD

#### Share of teaching staff by gender, 2016

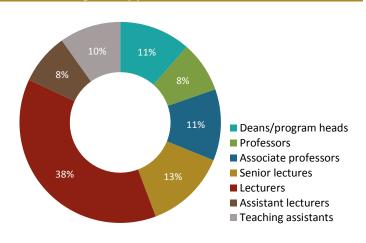

Note: "Other" includes senior lecturers, lecturers, and assistant lecturers.

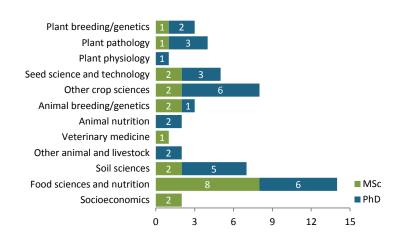

#### Share of teaching staff by age bracket, 2016

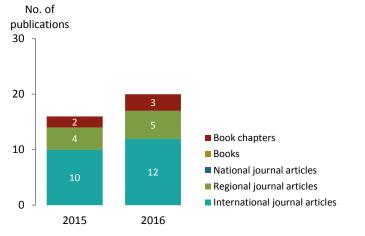

#### Share of teaching staff by position, 2016

#### MSc-and PhD-qualified teaching staff by discipline, 2016

#### Total number of peer-reviewed publications by type, 2015/2016

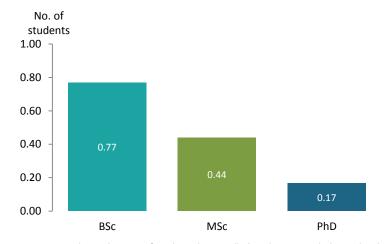

#### Total number of enrolled and graduated students by degree, 2016

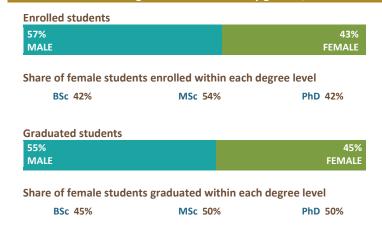

Note: Data on enrolled students are for all class levels in 2016; data on graduating students are for 2015/16.

#### Ratio of graduated to enrolled students by degree, 2016

Note: Data indicate the ratio of graduated to enrolled students at each degree level.

#### Share of enrolled and graduated students by gender, 2016

#### Ratio of enrolled students to teaching staff by degree, 2016

Note: Data indicate the ratio of MSc and PhD students to MSc- and PhD-qualified teaching staff, and total students to total teaching staff.

#### **BACKGROUND**

Credible quantitative and qualitative information on existing capacities in agricultural higher education agencies in Africa are crucial for strategic planning, policy formulation, setting priorities and benchmarks, measuring progress toward benchmarks, and identifying capacity gaps. Decisionmakers require a solid understanding of existing staffing and student capacities in the higher education sector, as well as in the wider agricultural innovation systems in Africa south of the Sahara. Access to such information supports effective policymaking to address capacity issues in higher education, agricultural research, extension, and other areas. Such information remains extremely limited, however.

To fill this need, the International Food Policy Research Institute's Agricultural Science and Technology Indicators (ASTI/IFPRI) and the Regional Universities Forum for Capacity Building in Agriculture (RUFORUM) initiated a partnership to pilot the collection of this type of data for RUFORUM's member universities. This factsheet presents the available data results for the University of Eldoret, School of Agriculture and Biotechnology. An online version of the data is available via the Portal on Agricultural Capacity in RUFORUM Universities: www.asti.cgiar.org/RUFORUM.

#### ABOUT RUFORUM, ASTI, AND IFPRI

The Regional Universities Forum for Capacity Building in Agriculture (RUFORUM) is a network of 85 universities in 36 African countries whose mandate is to strengthen the quality and relevance of postgraduate training and research in African universities—especially in agriculture, science, technology, and innovation—through activities designed to improve the capacity of African universities and research centers to generate knowledge relevant to Africa's development challenges. Agricultural Science and Technology Indicators (ASTI) is a comprehensive and trusted source of information on agricultural R&D systems across the developing world. ASTI works through collaborative alliances with numerous national and regional R&D agencies and international institutions, and is led by the International Food Policy Research Institute (IFPRI), which—as a CGIAR member—provides evidence-based policy solutions to sustainably end hunger.

RUFORUM and ASTI/IFPRI gratefully acknowledge participating RUFORUM member universities for their contributions to the data collection and preparation of this factsheet series. ASTI also acknowledges the Mastercard Foundation for its financial support of the development of the series. This factsheet has been prepared as an ASTI–RUFORUM output and has not been peer reviewed.
