SPEAKERS

Dr Monika Zurek

Senior Researcher, The Food Systems Group at The Environmental Change Institute,
University of Oxford

Dr Saher Hasnain

Postdoctoral Researcher, The Food Systems Group at The Environmental Change Institute,
University of Oxford

ABOUT

The pursuit for achieving the Sustainable Development Goals while balancing social and environmental trade-offs needs a harmonized capacity in food systems and foresight. In partnership with RUFORUM, this workshop by the Social and Environmental Trade-offs in African Agriculture (SENTINEL) program will explore key concepts in foresight and scenario analysis and the connections between foresight and food system governance. This will create the foundation necessary for undertaking foresight and scenario analysis in different food systems contexts.
