

RU 2020 GRG Student's Profile

Emmanuel Amani Kunde

University: Evangelical University in Africa, DRC

Program: M.Sc. in Environmental Sciences

GRG Project: Improving animal productivity by developing local food resources in South Kivu, eastern Democratic Republic of Congo.

Research Focus: Evaluation of the nutritional value of fodder resources used in cattle feeding in South Kivu (case of the territories of Kabare, Uvira and Walungu)

About me:

Most pastoralists and farmers in South Kivu in the Democratic Republic of Congo are facing a serious problem of malnutrition and food insecurity. This is due to several factors, including the problem of human and animal nutrition. Therefore, I am interested in finding and contributing to solutions to the problems related to livestock feeding and food security in the context of climate change in order to find strategies for adaptation to climate change. I am passionate about reading, teamwork and the love of a job well done.

My favourite quote:

"By trying, one can be wrong, but he who does not try, is always wrong" *Anonymous*
