

RU 2020 GRG Student's Profile

Hinmanhala Kambou

University: Université Nazi Boni, Burkina Faso

Program: M.Sc. in Animal Science

GRG Project: Relationship between cattle voluntary feed intake on pasture and enteric methane emission in the Sudanian zone of West Africa

Research Focus: Measuring the voluntary intake of local zebu cattle on pastures in the Sudanian zone of West Africa.

About me: I like spending time with animal breeders and farmers to discuss their innovations and agricultural research issues. I want to discover other countries that are advanced in Animal Science. I enjoy teamwork. I spend much of my free time practising athletics and discussing development problems with Friends. I'm passionate about contributing to innovative animal husbandry and agriculture with less greenhouse gas emissions.

My favourite quote:

"Pray as if everything depends on God, then when you are finished, go to work as if everything depends on you." *Martin Luther.*
