

## RU 2020 GRG Student's Profile

### **Tawakalitu Onanyemi**

**University:** Abomey-Calavi, Benin

**Program:** M.Sc. in Animal Production and Biotechnology

**GRG Project:** Relationship between cattle voluntary feed intake on pasture and enteric methane emission in the Sudanian zone of West Africa

**Research Focus:** Feed resource use efficiency in peri-urban cattle farming systems of South Benin

**About me:** I am passionate about plants, farm animals and the environment. My project aims to support organic production at a lower cost with modern means and methods to face the major challenges caused by under-production and malnutrition in Benin and West Africa. The RUFORUM support offers me an excellent opportunity to collect accurate data in the field and the analysis of samples in the laboratory, thus allowing me to participate in scientific research in agronomy in Benin. I have experience in promoting women in the entrepreneurship of poultry farming and rabbit farming projects.

**My favourite quote:**

"Don't let yesterday take up too much of today." — *Will Rogers*
