

RU 2020 GRG Student's Profile

Vincent Wabwire

University: Makerere University

Program: MSc. in Disaster Risk Management

GRG Project: Effects of changes in Land Use/Cover and Climate on Carbon Stocks in selected Agro-Ecological Zones of Uganda

Research Focus: Assessing the effect of changes in agricultural drought and land use/cover on carbon stocks in the Kyoga Plain Agro-ecological zone

About me: I am a born-again Christian who loves transforming lives, sharing good news and exploring the beautiful sceneries in the world. I am passionate about the World Rally Championship and football. I enjoy being in quiet places and listening to nature sounds, like a waterfall. I am particularly interested in reducing the impacts of natural disasters caused by climate change on human activities. I believe this can be achieved through better information management and sharing.

My favourite quote:

"There is no mountain anywhere; everybody's mountain is his ignorance." — *Bishop David Oyedepo*
